

Shooting an image is only half the story. If you want to turn that image into a photograph, you need to be able to print it. The imagePROGRAF PRO-6000 gives your images the quality they deserve while removing the complexity traditionally associated with printing.

This 60" wide solution is optimised for proofing, photography and fine art printing.

If you've found it hard to match the quality of your image with your finished print, then the Canon imagePROGRAF PRO-6000 may be for you.

We've built on years of credentials in both photography and print to deliver professional, quality prints up to 60" wide.

## At a glance

- 60" (152cm) wide
- 2400 x 1200 dpi
- New XPS Driver
- Single printhead design
- LUCIA PRO inks with Chroma Optimiser
- Borderless printing
- Newly developed L-COA PRO processor

Load two rolls of media at the same time or use the second roll unit as a take-up reel

Crystal Fidelity The most faithful shoot-to-print workflow with Canon EOS cameras and software

Chroma Optimiser

Balances the reflective properties of dark areas to improve overall print quality

Software helps keep track of printing costs

Colour Calibration

Built-in sensors read colour density to ensure your last print is as stunning as your first
