Page: 1/6

## 1. Identification of the substance/mixture and of the company/undertaking

**Product name:** KODAK EKTACOLOR SM Tank Bleach-fix / RA-2SM, Part A

**Product code:** 8915753 - Part A

**Supplier:** KODAK AUSTRALASIA Pty. Ltd., Level 2, 436 Johnston Street, Abbotsford, Victoria, 3067

For Chemical Emergency Information, in Australia call 1800 033111 (24 hour service Australia-wide); in New Zealand call 0800 734 607 (24 hour service); in Asia call +86 21 63500836

For Other Information, call 61 3 8417 8000.

**Synonyms:** PCD 6027

**Product Use:** photographic processing chemical (bleach/bleach fixer), For industrial use only.

## 2. Hazards identification

**STATEMENT OF HAZARDOUS NATURE:** Hazardous according to criteria of Australian Safety and Compensation Council

**Harmful.** Harmful by inhalation.

Contains no scheduled poisons

## 3. Composition/information on ingredients

Weight percent	Components (CAS-No.)
25 - 30	Ammonium thiosulphate (7783-18-8)
1 - 5	Sodium bisulphite (7631-90-5)
1 - 5	Ammonium sulphite (10196-04-0)

## 4. First aid measures

**Inhalation:** If inhaled, remove to fresh air. Get medical attention if symptoms occur.

**Eyes:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

**Skin:** Wash off with soap and water. Get medical attention if symptoms occur.

**Ingestion:** If swallowed, only induce vomiting as directed by medical personnel. Never give anything by mouth to an unconscious person. Call a physician or poison control centre immediately.

## 5. Fire-fighting measures

**Hazchem Code:** Not specified

**Extinguishing Media:** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Flush with plenty of water.

# Material Safety Data Sheet

Revision Date 09.05.2011  
Print Date: 19.03.2012  
Z17000000254/Version: 2.0  
Page: 2/6

**Special Fire-Fighting Procedures:** Wear self-contained breathing apparatus and protective clothing. Fire or excessive heat may produce hazardous decomposition products.

**Hazardous Combustion Products:** Carbon oxides, nitrogen oxides (NOx), sulfur oxides, (see also Hazardous Decomposition Products sections.)

**Unusual Fire and Explosion Hazards:** Dried product residue can act as a reducing agent. Reacts violently with oxidizing materials. May cause spontaneous heating and ignition when absorbed on combustible, porous material (e.g. rags, paper, sawdust, cotton, clothing).

## 6. Accidental release measures

Absorb spill with vermiculite or other inert material. Contaminated absorbent should be disposed of in accordance with local regulations. Collect in a noncombustible container for prompt disposal. Clean surface thoroughly to remove residual contamination. Flush with plenty of water.

## 7. Handling and storage

**Personal precautions:** Avoid breathing mist or vapour. Avoid contact with eyes, skin, and clothing. Use only with adequate ventilation. Wash thoroughly after handling.

**Prevention of Fire and Explosion:** Keep from contact with oxidizing materials, highly oxygenated or halogenated solvents, organic compounds containing reducible functional groups. Remove and wash contaminated clothing promptly.

**Storage:** Store in original container. Keep container tightly closed to prevent the loss of water. Keep away from incompatible substances (see Incompatibility section.)

## 8. Exposure controls/personal protection

### Occupational exposure controls

Chemical Name	Regulatory List	Value Type	Value
Sodium bisulphite	Exposure Standards	time weighted average	5 mg/m3
Sulphur dioxide		time weighted average	2 ppm 5.2 mg/m3
		Short term exposure limit	5 ppm 13 mg/m3
Sodium bisulphite	New Zealand	time weighted average	5 mg/m3
Sulphur dioxide		time weighted average	2 ppm 5.2 mg/m3
		Short term exposure limit	5 ppm 13 mg/m3

**Ventilation:** Good general ventilation should be used. Ventilation should be sufficient so that applicable occupational exposure limits are not exceeded. Ventilation rates should be matched to conditions. Supplementary local exhaust ventilation, closed systems, or respiratory protection may be needed in special circumstances.

**Respiratory protection:** None should be needed. A respirator should be worn if hazardous decomposition products are likely to be or have been released. Respirator type: Acid gas/N95 Particulate Filter. If respirators are used, a program should be instituted to assure compliance with applicable federal, state, commonwealth, provincial, or local laws and regulations.

**Eye protection:** Wear safety glasses with side shields (or goggles).

# Material Safety Data Sheet

Revision Date 09.05.2011  
Print Date: 19.03.2012  
Z17000000254/Version: 2.0  
Page: 3/6

**Hand protection:** For operations where prolonged or repeated skin contact may occur, impervious gloves should be worn.

## 9. Physical and chemical properties

**Physical form:** liquid

**Colour:** clear light yellow

**Odour:** ammonia

**Specific gravity:** 1.068

**Vapour pressure:** 24 mbar (18.0 mm Hg)

**Vapour density:** 0.6

**Volatile fraction by weight:** 65 - 70 %

**Boiling point/boiling range:** > 100 °C (> 212.0 °F)

**Water solubility:** complete

**pH:** 5.4

**Flash point:** does not flash

**Flammability Limits:** Not specified

## 10. Stability and reactivity

**Stability:** Stable under normal conditions.

**Incompatibility:** Acids, Strong bases, sodium hypochlorite (bleach), Halogenated compounds, Oxidizing agents  
Contact with sodium hypochlorite (bleach) may form chloramine (toxic gas). Contact with strong acids liberates sulphur dioxide. Contact with base liberates flammable material. Contact with base liberates ammonia.

**Hazardous decomposition products:** Ammonia, chloramine, nitrogen oxides (NO<sub>x</sub>), Sulphur oxides.

**Hazardous Polymerization:** Hazardous polymerisation does not occur.

## 11. Toxicological information

### Effects of Exposure

**Inhalation:** Harmful by inhalation. Some asthmatics or hypersensitive individuals may experience difficulty breathing if exposed to aerosols or decomposition products that are not anticipated during normal use.

**Eyes:** No specific hazard known. May cause transient irritation.

**Skin:** Expected to be a low hazard for recommended handling. This material has a low potential to cause allergic skin reactions; however, cases of human skin sensitization have been reported.

# Material Safety Data Sheet

Revision Date 09.05.2011  
Print Date: 19.03.2012  
Z17000000254/Version: 2.0  
Page: 4/6

**Ingestion:** Expected to be a low ingestion hazard. Some asthmatics or sulfite-sensitive individuals may experience wheezing, chest tightness, stomach upset, hives, faintness, weakness and diarrhea.

## Data for Ammonium thiosulphate (CAS 7783-18-8):

### Acute Toxicity Data:

Oral LD50 (male rat): 500 - 5,000 mg/kg

- Eye irritation: moderate

## Data for Sodium bisulphite (CAS 7631-90-5):

### Acute Toxicity Data:

Oral LD50 (rat): > 1,600 mg/kg

## Data for Ammonium sulphite (CAS 10196-04-0):

### Acute Toxicity Data:

Oral LD50 (rat): 2,528 mg/kg

- Inhalation LC50 (rat): > 2.46 mg/l / 6 hr
- Dermal LD50 (guinea pig): >1.0 g/kg
- Skin irritation: slight

## 12. Ecological information

The following properties are ESTIMATED from the components of the preparations.

### Potential Toxicity:

Toxicity to fish (LC50): > 100 mg/l

Toxicity to daphnia (LC50): > 100 mg/l

Toxicity to algae (EC50): > 100 mg/l

Toxicity to other organisms: Not available

**Persistence and degradability:** Readily biodegradable.

**Chemical Oxygen Demand (COD):** ca. 128 g/l

**Biochemical Oxygen Demand (BOD):** ca. 105 g/l

## 13. Disposal considerations

Discharge, treatment, or disposal may be subject to federal, state, commonwealth, provincial, or local laws. Since emptied containers retain product residue, follow label warnings even after container is emptied.

## 14. Transport information

Not regulated for all modes of transportation.

For more transportation information, go to: [www.kodak.com/go/ship](http://www.kodak.com/go/ship).

## 15. Regulatory information

# Material Safety Data Sheet

## Notification status

Regulatory List	Notification status
TSCA	All listed
DSL	All listed
NDSL	None listed
EINECS	All listed
ELINCS	None listed
NLP	None listed
AICS	All listed
IECS	All listed
ENCS	All listed
ECI	All listed
NZIoC	All listed
PICCS	All listed

"Not all listed" indicates one or more component is either not on the public Inventory or is subject to exemption requirements. If additional information is needed contact Kodak.

**Poisons Schedule:** Not specified

**Australian Safety and Compensation Council:** none

## Other regulations

Australia National Model Regulations for the Control of Scheduled Carcinogenic Substances	No components listed
---	----------------------

## 16. Other information

The data below reflects current legislative requirements whereas the product in your possession may carry a different version of the label depending on the date of manufacture. The actual label information will depend upon the intended use of the product. Australian Safety and Compensation Council labeling appears for commercial/industrial use.

### Australian Safety and Compensation Council Labeling:

**pH:** 3 - 6

**Symbol/Indication of Danger:**

Xn: Harmful

**Risk Phrases:**

R20: Harmful by inhalation.

**Safety Phrases:**

S23: Do not breathe gas/fumes/vapour/spray.  
S24/25: Avoid contact with skin and eyes.

**National Health and Medical Research Council Standard for the Uniform Scheduling of Drugs and Poisons Labeling:**

**CONTAINS NO SCHEDULED POISONS**

**First aid:** No first aid instructions are recommended for labelling purposes.
