

Cloud photo kiosk

It's a web kiosk but the files stay on my store's network and I can buy my own affordable sleek hardware, now that's a photo kiosk revolution!

Sell prints or high margin photo products

No commission on sales with the Dakis Cloud Photo Kiosk

Cloud Photo kiosk, simply wow!

Our Software

- Order prints and/or create photo products such as greeting cards, calendars, collages and photobooks.
- Files stay on your internal network for fast transfers.
- Manage all your kiosks through a single account.
- Home page design customization to your specifications.
- Easily showcase your promotions on the homepage.
- Automatic Media Detection.
- Always up to date and no more large investments required.
- Seamless automatic updates: always operate on the latest version and never fiddle with CD/DVD updates again.
- Create any product that you want – no programming skills required.

The Hardware

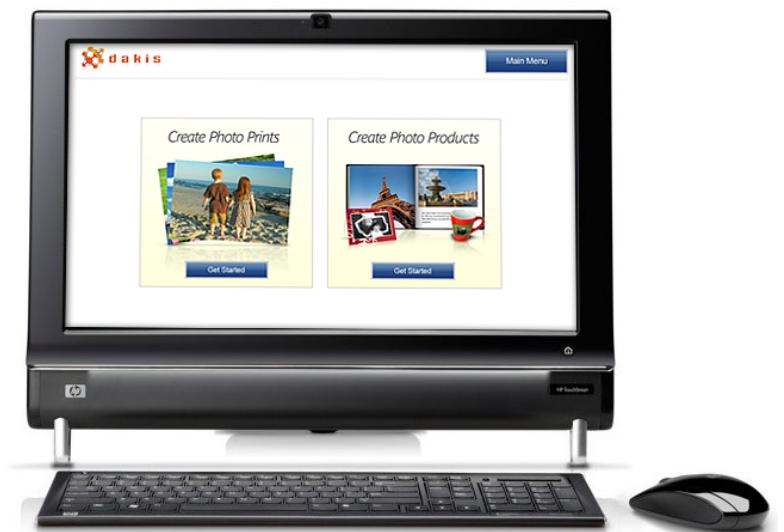

- Select the hardware of your choice or use your existing hardware (pending minimum requirements – see below)
- Suggested kiosk hardware, product specs and financing: HP TouchSmart 300 and 600 series or <http://us.msi.com/msiaio>.

Always run on the latest and best version to stay ahead of the competition and to protect your investment

Because Dakis' Cloud Photo Kiosk is connected to the web, you always get the latest enhancements and standard features automatically activated at no additional cost. No more waiting on DVDs or downloads for enhancements. Always offer your customers the latest and best shopping experience and stay ahead of the competition.

Affordable and lowest total cost of operations

No large capital investment, no integration fees and no need to purchase new software versions or upgrades. You can buy your own sleek and affordable hardware, a tremendous cost saving. Simply wow!

Speed = larger orders

The files stay on your store's network for fast file transfer. More speed, more money!

Have more than one store? Ask about Dakis' multi-store automated order routing capabilities.
